Hi Jim,

This is a version of the New York Sessions I put together to also include a couple of tracks that appeared either on the (legitimate) albums *Biograph* and *The Bootleg Series Vol. 1-3*. The only track that includes Deliverance is "Meet Me In The Morning." It should be noted "Call Letter Blues" is the exact same track with different (probably earlier) lyrics. There is another version of "Meet Me In The Morning" that was released for a Record Store Day thing that I don't have, but you should be able to find it on youtube that is just Bob and Tony.
